

## A big change a Chipping

Usually our Chipping rally is held at the end of the year, we have been blessed with some unseasonably good weather in the past but more often than not the skies are grey. So that you might see the Lancashire Hill Country at its best and enjoy the great outdoors, **we have decided to move the rally to June**, there was a huge gap in the programme anyway.

There is a well stocked farm shop for your BBQ just next to the site and alfresco dining opportunities at the Sun Inn 400 yds.

The end date will allow you to travel across to the We'll Meet Again rally at Boston just 177 miles SE.

We have tried to plan our rally so that we have a good balance of free time and activities together, we can advise you on trips out to local places of interest in your free time.

**Why not come Up North  
and see what you've been missing.**
